

Jewish Population in the United States, 1994

BASED ON LOCAL COMMUNITY COUNTS — the method for identifying and enumerating Jewish population that serves as the basis of this report — the estimated size of the American Jewish community in 1994 was 5.9 million. This is about 6 percent more than the 5.5 million “core” Jewish population estimated in the Council of Jewish Federations’ 1990 National Jewish Population Survey (NJPS).¹

The difference, small though it is, between the national and aggregated local figures is partly explained by the lag in data gathering and reporting on the local level. As more local communities conduct studies over the next few years, declines and increases that have already occurred will be documented, and the updated statistics may show national and regional patterns more in line with NJPS findings. However, since there are definitional issues, as well as a lack of uniformity in local research, which often relies on outdated lists for population projections, the aggregate counts may never exactly match the NJPS national totals.

The demographic results of the NJPS suggested that the population was growing slightly due to an excess of Jewish births over Jewish deaths during the late 1980s. However, extrapolation from the age structure suggests that for the mid-1990s, zero population growth in numbers is about to be realized with a balance between the annual numbers of births and deaths. At the same time, some growth in numbers is achieved through Jewish immigration into the United States. The most obvious example is that of refugees from the former Soviet Union, for whom the annual quota is currently set at 40,000 Jews each year.

The NJPS used a scientifically selected sample to project a total number for the United States, but could not provide accurate information on the state and local levels. Therefore, as in past years, in this article we have based local, state, and regional population figures on the usual estimating procedures.

While the Jewish federations are the chief reporting bodies, their service areas vary in size and may represent several towns, one county, or an aggregate of several counties. In some cases we have subdivided federation areas to reflect the more natural geographic boundaries. Some estimates, from areas without federations, have been provided by local rabbis and other informed Jewish community leaders. In still other cases, the figures that have been updated are from past estimates provided by United Jewish Appeal field representatives. Finally, for smaller communities where no recent estimates are available, figures are based on extrapolation from older data. The estimates are for the resident Jewish population, including

¹See Barry A. Kosmin et al., *Highlights of the CJF 1990 National Jewish Population Survey* (New York, Council of Jewish Federations, 1991).

those in private households and in institutional settings. Non-Jewish family members have been excluded from the total.

The state and regional totals shown in Appendix tables 1 and 2 are derived by summing the individual estimates shown in table 4 and then making three adjustments. First, communities of less than 100 are added. Second, duplicated counts within states are eliminated. Third, communities whose population resides in two or more states (e.g., Kansas City and Greater Washington, D.C.) are distributed accordingly.

Because population estimating is not an exact science, the reader should be aware that in cases where a figure differs from last year's, the increase or decrease did not come about suddenly but occurred over a period of time and has just now been substantiated. Similarly, the results of a completed local demographic study often change the previously reported Jewish population figure. This should be understood as either an updated calculation of gradual demographic change or a correction of a faulty older estimate.

In determining Jewish population, communities count both affiliated and nonaffiliated residents who are "core" Jews as defined in NJPS.² In most cases, counts are made by households, with that number multiplied by the average number of self-defined Jewish persons per household. Similarly to NJPS, most communities also include those born and raised as Jews but who at present consider themselves as having no religion. As stated above, non-Jews living in Jewish households, primarily the non-Jewish spouses and non-Jewish children, are not included in the 1994 estimates presented in the appendix below.

Local Population Changes

Three communities in Florida hold the distinction of reporting Jewish population increases greater than 10,000 this year. They are Fort Lauderdale, Boca Raton-Delray Beach, and Pinellas County. Included with Fort Lauderdale is the northern two-thirds of Broward County. Boca Raton-Delray Beach includes the southern third of Palm Beach County. The two principal communities in Pinellas County are Clearwater and St. Petersburg. Each of these local Florida increases was documented by the research of Dr. Ira Sheskin.

A recent demographic survey in Pinellas County, which utilized computer-generated random digit-dialing (RDD) telephone calls, provided a new estimate of 24,200 Jews. The previous estimate of 9,500 was not based on a scientific study but was simply a "guesstimate" of the local Jewish federation. This new study also revealed that the Jewish population was nearly 20,000 by the mid-1980s, and that it has since continued to increase moderately.

The new Fort Lauderdale estimate is based on a method of estimating households

²Born Jews who report adherence to Judaism, Jews by choice, and born Jews without a current religion ("secular Jews").

using distinctive Jewish names (DJNs). While this procedure is viewed by most researchers as less accurate than RDD (for one thing, it misses certain key segments of the Jewish community), in this case special care was taken to achieve greater accuracy. The adjacent community of Hollywood-South Broward County completed an RDD survey during 1994, and the information it provided on the proportion of DJNs to total Jewish population was applied to Fort Lauderdale. The increase in Fort Lauderdale should not be interpreted as a recent surge in the Jewish population but rather as the result of somewhat improved methodology and some moderate growth. The new estimate for Boca Raton-Delray Beach is based on a DJN estimate, using information from the rest of Palm Beach County, where an RDD survey was conducted several years ago.

Communities reporting increases of greater than 1,000 but less than 10,000 include Santa Cruz, California; Sarasota, Florida; Albuquerque, New Mexico; Charlotte, North Carolina; Minneapolis, Minnesota; Orange County, New York; and Portland, Oregon. The increase in Minneapolis emerged from a recently completed demographic study that showed not only larger numbers than previously believed but also some moderate growth. The increases in the other communities were substantiated through expanded federation or community lists. The Orange County, New York, increase was due entirely to growth in the Satmar Hassidic village of Kiryas Joel. Although this community's Jewish population had been included in Orange County's overall total since its establishment in the 1970s, it is being listed separately in the report for the first time.

Along with the Gulf Coast's Pinellas County and the West Coast's Santa Cruz, eight other communities more than doubled their Jewish population estimates, all of them in the South or West. These include Fairbanks and Juneau, Alaska; Lake Havasu City, Arizona; Santa Maria, California; Vail, Colorado; Fort Pierce, Port Charlotte-Punta Gorda, Florida; and Wilmington, North Carolina.

In addition to Kiryas Joel, several other communities are being listed for the first time — Kenai Peninsula, Alaska; Steamboat Springs, Colorado; Kalispell and Missoula, Montana; and Taos, New Mexico.

Except for suburban Somerset County, New Jersey, and Lafayette, Indiana, all of the remaining communities showing moderate growth are in the South, the West, or northern New England. These include Montgomery, Alabama; Flagstaff and Yuma, Arizona; Murietta Hot Springs, California; Aspen, Colorado; Vero Beach, Florida; Athens, Georgia; Amherst and Northampton, Massachusetts; Rockland, Maine; Hanover-Lebanon, Keene, Manchester, and Nashua, New Hampshire; Santa Fe, New Mexico; Nashville and Oak Ridge, Tennessee; Newport News-Hampton, Virginia; St. Johnsbury, Vermont; and Spokane and Tacoma, Washington.

The most significant decline in population size was in Miami-Dade County, Florida, with the greatest loss in Miami Beach. An RDD survey, carried out there for the first time, yielded a new estimate of 145,000. The previous figure of 189,000 was based on an updating of the 1982 estimate, which has been shown to be an

overestimate by about 15 percent. Thus, the decline of 44,000 reflects this correction as well as actual demographic change in recent years. The primary features of this change in Dade County are an aging population that is dying out, along with a preference by Jewish newcomers to Florida to locate further up the coast in Broward and Palm Beach counties. As evidenced in a recent demographic study referred to earlier in this article, a similar pattern of decline has begun to emerge in southern Broward County. The losses in the communities of Hollywood and Hallandale were somewhat offset by growth in the southwestern portion of Broward County. Other communities reporting losses of greater than 1,000 include Savannah, Georgia; Springfield, Massachusetts; and Passaic County, New Jersey.

As in recent years, most of the remaining communities with losses, albeit more moderate, were in the Northeast and Midwest. These include Decatur, Illinois; Evansville, Indiana; Fall River, Haverhill, and New Bedford, Massachusetts; Waterville, Maine; Poughkeepsie-Dutchess County and Elmira, New York; Dayton and Elyria, Ohio; and Ambridge, Pennsylvania. Communities in other regions reporting moderate declines include Anchorage, Alaska; Daytona Beach and Pensacola, Florida; and Petersburg, Virginia. We should note that the change in Anchorage, as well as the other Alaskan communities mentioned earlier in this article, reflect the results of a recent demographic study of Alaskan Jewry.

Data on Metropolitan Areas

In addition to the detailed Jewish population figures by community, region, and state, this year we have provided information for metropolitan areas, rank-ordered by Jewish population (table 3). Included in this table is the Jewish percentage of the particular metropolitan area, its share of the U.S. Jewish population, and the cumulative share of total Jewish population for communities up to that ranking.

The 1987 *American Jewish Year Book* provided a similar listing of the top metropolitan areas, and while there have been numerous changes in local Jewish population estimates, the relative positions on table 3 remain nearly the same. Among the differences: five communities — Orlando, San Diego, Sacramento, Seattle-Tacoma, and Tampa-St. Petersburg-Clearwater — have each moved up four positions or more, and two communities decreased their ranking by four places or more: Hartford-New Britain-Middletown (Connecticut) and Kansas City.

One obvious pattern established in table 3 is the continued concentration of Jews within a few specific areas. Approximately one-third of the nation's Jewish population live in the "tri-state" New York-Northern New Jersey-Long Island metropolitan area, which encompasses parts of New York, New Jersey, and Connecticut. It should be noted, however, that as recently as 45 years ago more than half of U.S. Jews were concentrated there.

Cumulatively, about half of all U.S. Jews reside in the top three metropolitan areas: New York-Northern New Jersey-Long Island, Los Angeles-Anaheim-Riverside, and Miami-Fort Lauderdale. To reach three-quarters of the U.S. Jewish popu-

lation, 11 communities have to be included; for 90 percent of the total, 36 communities. This pattern reflects the fact that the Jewish population is generally concentrated in large metropolitan areas. By contrast, for the U.S. total population, the 34 largest metropolitan areas are needed to encompass half the population, and all 309 of the nation's metropolitan areas include only about 80 percent of the nation's inhabitants.

The Jewish proportion in particular locales is of interest. Only three areas are more than 10 percent Jewish: New York-Northern New Jersey-Long Island, Miami-Fort Lauderdale, and West Palm Beach-Boca Raton-Delray Beach. In only one other area, Boston-Lawrence-Salem, are Jews more than 5 percent of the population; in five communities they exceed 4 percent of the total: Philadelphia-Wilmington-Trenton, Washington, D.C., Baltimore, New Haven-Meriden, and Atlantic City. Only one other community, which is not listed, Sarasota, Florida, has a Jewish population above 4 percent.

Notes

CALIFORNIA

Long Beach—includes in Los Angeles County: Long Beach, Signal Hill, Cerritos, Lakewood, Rosmoor, and Hawaiian Gardens. Also includes in Orange County: Los Alamitos, Cypress, Seal Beach, and Huntington Harbor.

Palm Springs—includes Palm Springs, Desert Hot Springs, Cathedral City, Palm Desert, and Rancho Mirage.

Pomona Valley—includes Alta Loma, Chino, Claremont, Cucamonga, La Verne, Montclair, Ontario, Pomona, San Dimas, and Upland. Portion also included in Los Angeles total.

Sacramento—includes Yolo, Placer, El Dorado, and Sacramento counties.

San Francisco Bay area—North Peninsula includes northern San Mateo County. South Peninsula includes southern San Mateo County and towns of Palo Alto and Los Altos in Santa Clara County. San Jose includes remainder of Santa Clara County.

COLORADO

Denver—includes Adams, Arapahoe, Boulder, Denver, and Jefferson counties.

CONNECTICUT

Bridgeport—includes Monroe, Easton, Trumbull, Fairfield, Bridgeport, Shelton, Stratford, and part of Milford.

Danbury—includes Danbury, Bethel, New Fairfield, Brookfield, Sherman, Newtown, Redding, Ridgefield, and part of Wilton; also includes some towns in neighboring Putnam County, New York

Hartford—includes most of Hartford County and Vernon, Rockville, Ellington, and Tolland in Tolland County, and Meriden area of New Haven County.

Lower Middlesex County—includes Branford, Guilford, Madison, Clinton, Westbrook, Old Saybrook, Old Lyme, Durham, and Killingworth. Portion of this area also included in New London and New Haven totals.

Meriden—includes Meriden, Southington, Cheshire, and Wallingford. Most included in Hartford total and a portion also included in New Haven and Waterbury totals.

New Haven—includes New Haven, East Haven, Guilford, Branford, Madison, North Haven, Hamden, West Haven, Milford, Orange, Woodbridge, Bethany, Derby, Ansonia, and Cheshire.

New London—includes central and southern New London County. Also includes part of Lower Middlesex County and part of Windham County.

Norwalk—includes Norwalk, Weston, Westport, East Norwalk, Darien, Wilton, part of Georgetown, and part of New Canaan.

Valley Area—includes Ansonia, Derby, Shelton, Oxford, Seymour, and Beacon Falls. Portion also included in Bridgeport and New Haven totals.

Waterbury—includes Bethlehem, Cheshire, Litchfield, Morris, Middlebury, Southbury, Naugatuck, Prospect, Plymouth, Roxbury, Southbury, Southington, Thomaston, Torrington, Washington, Watertown, Waterbury, Oakville, Woodbury, and Wolcott.

DELAWARE

Dover—includes most of central and southern Delaware.

DISTRICT OF COLUMBIA

Greater Washington—includes Montgomery and Prince Georges counties in Maryland, Arlington County, Fairfax County, Falls Church, and Alexandria in Virginia.

FLORIDA

Ft. Lauderdale—includes Ft. Lauderdale, Pompano Beach, Deerfield Beach, Tamarac, Margate, and other towns in northern Broward County.

Hollywood—includes Hollywood, Hallandale, Cooper City, Dania, Davie, Pembroke, and other towns in southern Broward County.

Orlando—includes all of Orange and Seminole counties and part of Lake County.

GEORGIA

Augusta—includes Burke, Columbia, and Richmond counties and part of Aiken County, South Carolina.

ILLINOIS

Chicago—includes all of Cook and DuPage counties and a portion of Lake County.

Elgin—includes northern Kane County, southern McHenry County, and western edge of Cook County.

Quad Cities—includes Rock Island and Moline (Illinois), Davenport and Bettendorf (Iowa).

Rockford—includes Winnebago, Boone, and Stephenson counties.

Southern Illinois—includes lower portion of Illinois below Carlinville, adjacent western portion of Kentucky, and adjacent portion of southeastern Missouri.

INDIANA

South Bend—includes St. Joseph and Elkhart counties and part of Berrien County, Michigan.

KANSAS

Wichita—includes Sedgwick County and towns of Salina, Dodge City, Great Bend, Liberal, Russell, and Hays.

KENTUCKY

Lexington—includes Fayette, Bourbon, Scott, Clark, Woodford, Madison, Pulaski, and Jessamine counties.

LOUISIANA

Baton Rouge—includes E. Baton Rouge, Ascension, Livingston, St. Landry, Iberville, Pointe Coupee, and W. Baton Rouge parishes.

South Central—includes Abbeville, Lafayette, New Iberia, Crowley, Opelousas, Houma, Morgan City, Thibodaux, and Franklin.

MAINE

Southern Maine—includes York, Cumberland, and Sagadahoc counties.

MARYLAND

Upper Eastern Shore—includes towns in Caroline, Dorchester, Kent, Queen Annes, and Talbot counties.

MASSACHUSETTS

Andover—includes Andover, N. Andover, Boxford, Lawrence, Methuen, Tewksbury, Dracut, and town of Salem, New Hampshire.

Boston Metropolitan region—includes all towns south and west of Boston within approximately 30 miles, and all towns north of Boston within approximately 20 miles. All towns formerly part of Framingham area are now included in Boston total.

Brockton—includes Avon, Brockton, Easton, Bridgewater, Whitman, and West Bridgewater. Also included in Boston total.

Lynn—includes Lynn, Saugus, Nahant, Swampscott, Lynnfield, Peabody, Salem, Marblehead, Beverly, Danvers, Middleton, Wenham, Topsfield, Hamilton, Manchester, Ipswich, Essex, Gloucester, and Rockport. Also included in Boston total.

New Bedford—includes New Bedford, Dartmouth, Fairhaven, and Mattapoisett.

Springfield—includes Springfield, Longmeadow, E. Longmeadow, Hampden, Wilbraham, Agawam, and W. Springfield.

Worcester—includes Worcester, Northborough, Westborough, Shrewsbury, Boylston, W.

Boylston, Holden, Paxton, Leicester, Auburn, Millbury, and Grafton. Also included in the Worcester County total.

MICHIGAN

Mt. Pleasant—includes towns in Isabella, Mecosta, Gladwin, and Gratiot counties.

NEBRASKA

Omaha—includes Douglas and Sarpy counties. Also includes Pottawatomie County, Iowa.

NEW HAMPSHIRE

Laconia—includes Laconia, Plymouth, Meredith, Conway, and Franklin.

NEW JERSEY

Cherry Hill—includes Camden, Burlington, and Gloucester counties.

Essex County—East Essex includes Belleville, Bloomfield, East Orange, Irvington, Newark, and Nutley in Essex County, and Kearney in Hudson County. North Essex includes Caldwell, Cedar Grove, Essex Fells, Fairfield, Glen Ridge, Montclair, North Caldwell, Roseland, Verona, and West Caldwell.
